Gould's Academy.

TO FRIENDS AND PATRONS:—

We have adopted a regular course of studies which is broad enough to cover the wants of all our students. We mean the course of discipline shall be as it has been, mild, yet firm. We believe the teacher to be the leader and exemplar of his students, not the rigid and grim jailor. While we gladly retain all the good which the past holds for us in method and maxim, yet we believe that the *world moves*, and we should seize upon every *real improvement* at once.

Our method is objective, and recitations are conducted rather for inculcating general principles, than for memorizing large quantities of text. We try to be the friend, monitor and helper of each student, yet knowing that the true end is "The greatest good to the greatest number." We shall not retain in the school any student who shall be hardened to kindness and reason, and shall prove to be an injury. Constant communication is desired with the parents of those coming from a distance.

A charter for Bethel Academy. This act was approved by Governor R. P. Dunlap, Jan. 27, 1836. At the first meeting of the Trustees, held May 2, 1836, arrangements were made for erecting the building, and it was completed during the following summer. At first the belfry was placed upon the centre of the roof. The seats were arranged on each side of the room, for the boys on one side and the girls facing them on the other. The Academic year was divided into four terms of twelve weeks each.

Isaac Randall was the first Preceptor, and commenced the first term September 15, 1836, with Noah Woods as Assistant. Mr. Randall remained during Spring and Fall terms of 1837. There were no Winter or Summer terms in those years. There were during the year, 130 different scholars, and in Spring of 1837, 76 pupils.

In 1842, Rev. Daniel Gould made a bequest in favor of the Academy, with the condition that it should be called 'Gould's Academy.' The next winter the name was changed by permission of Legislature. Subsequently about eight hundred dollars was realized from the bequest. This was made a perpetual fund, the interest of which goes to pay the Preceptor a salary in addition to what tuition he receives.

In 1860, the Trustees obtained from the Legislature a half township of land, which was sold for about twenty-five hundred dollars.

Only five of the different teachers have published catalogues, viz:
